

ITC Hotels Performance Analysis

Financial Analysis:

- **Headline:** Key Financial Performance Indicators
- **Key Insights:**
 - **Strong Revenue Generation:** ITC Hotels has generated ₹2.01 billion in revenue.
 - **Healthy Revenue Realization:** A significant portion of the generated revenue was realized, totaling ₹1.71 billion.
 - **Efficient Revenue per Available Room (RevPAR):** At ₹7.35K, indicating strong revenue generation relative to available rooms.
 - **Solid Average Daily Rate (ADR):** ₹14.92K suggests a healthy average price for occupied rooms.
 - **Positive Revenue Growth:** Impressive Month-over-Month (MOM) revenue growth of 50.44% and Week-over-Week (WOW) revenue growth of 13.85% signal positive recent financial trends.
 - **Revenue Trends:** The daily revenue realized in early May shows a consistent performance above ₹1.7 billion, with a peak around ₹2.52 billion on May 13th. Top revenue-generating properties include ITC Exotica and ITC Palace, while the 'Elite' room class contributes the most to overall revenue.
- **Dashboard Visuals:**
 - **Overall Revenue KPIs:** (Include a picture showing the "ITC HOTELS" title and the KPI cards for "2.01bn revenue generated," "1.71bn revenue realised," "7.35K revPAR," "50.44% MOM growth," and "13.85 WOW growth").

- **Booking Analysis 2 (Growth Trends & Occupancy by Booking Factors):**
- **Headline: Booking Growth Patterns and Occupancy Drivers**
 - **Key Insights:**Week Over Week Booking Growth: There's variability in weekly booking growth across different room classes, with an overall positive growth trend from May to July.
 - **Month Over Month Booking Growth:** Monthly booking growth also shows fluctuations across different weeks and room segments.
 - **Occupancy by Length of Stay:** Shorter stays (1-3 days) generally correlate with higher occupancy rates.
 - **Revenue by Booking Lead Time:** Bookings made further in advance (more days prior to arrival) tend to generate higher overall revenue.
 - **Dashboard Visuals:**Week Over Week Growth Table: (Include a picture of the "Week Over Week Growth" table).

Cancellation Analysis:

- **Headline: Booking Cancellation Trends and Impact**
 - **Key Insights:**High Cancellation Rate: A significant 24.83% of bookings are cancelled.
 - **Surge in Recent Cancellations:** There's a concerning increase in cancellations both month-over-month (49.15%) and week-over-week (a substantial 1423.94%).
 - **Significant Financial Impact:** These cancellations resulted in ₹299 Million in lost revenue.
 - **Revenue of Cancelled Bookings:** The revenue associated with the cancelled rooms totaled ₹199.18 Million.
 - **Cancellation Rate by Property:** ITC Palace and ITC Grands exhibit higher cancellation rates compared to other properties.
 - **Late Cancellations:** A significant portion of cancellations occur closer to the check-in date (within 10 days prior).
 - **Cancellation Rate Trend:** The daily cancellation rate fluctuated between May and July 2022, indicating potential periods of higher instability.
 - **Dashboard Visuals:**Key Cancellation Metrics: (Include a picture showing the "24.83% Cancellation Rate," "49.15% MOM Cancellation," "1423.94% WOW Cancellation," "₹199.18M cancelled rooms revenue," and "₹299M Lost Revenue" information).

Conclusion:

- ITC Hotels demonstrates strong revenue generation and healthy ADR, with significant recent growth. While overall occupancy is solid, weekday performance is notably stronger than weekends.
- A key area for improvement is the high cancellation rate, leading to substantial lost revenue.

Key Recommendations:

- Implement strategies to reduce the high cancellation rate.
- Develop initiatives to boost weekend occupancy.
- Leverage insights on length of stay and booking lead time for targeted strategies. Addressing the cancellation challenge is crucial for maximizing ITC Hotels' financial performance and ensuring continued success.
